RE: Verigo® Acceptance

Dear Mr. Kinsey,

This letter is to inform you that effective December 19, 2016 Southwest Airlines Co. will allow cargo shipments containing the Verigo® Pod devices. Southwest Airlines Co., in accordance with 14 CFR 121.306 (c), has reviewed the technical data and supporting documentation supplied by Verigo regarding the Verigo Pod devices, and find the data acceptable to us.

The Verigo Pod device must have the factory label affixed to it, indicating the one of the approved Model numbers listed below, any device not labeled as such or bearing a different model number will not be accepted:

Device	Model	WN Approval Date
Verigo	Pod RH	December 19, 2016
Verigo	Pod	December 19, 2016
Verigo	ONE-90	December 19, 2016
Verigo	Probe	December 19, 2016

Additionally, all applicable hazardous materials regulations in the current versions of 49 CFR and/or IATA Dangerous Goods Regulations pertaining to the transportation of Lithium batteries by air will apply.

We look forward to working with you and the new opportunities the Verigo® devices bring to us. Please feel free to contact me should you have any questions.

Sincerely,

Patti Sinclair
